About ANHC

Established in 1971, ANHC was founded by Athenian women known as the Four Matrons: Evelyn Neely, Jessie Barnett, Miriam Moore, and Virginia Walker. They were activists who forged change in Athens GA as well as the state of Georgia. We are proud to be part of their legacy. ANHC became a Federally Qualified Health Center in 2012 and has been growing ever since. Join our team to help further our mission to provide affordable high quality healthcare to all individuals in Athens-Clarke County and surrounding areas.
